NEW BUSINESS

- 7.1 Dewey-Humboldt water budget. Hamilton put together a paper on what is currently known about the water budget in Dewey-Humboldt. It was determined that a lot of information needed would not be available because of no way of getting it. There could be some broad determinations that should be presented to the council.
- 7.2 Wilhoit Water Company impact on Dewey-Humboldt. It was discussed about the town forming a water company to take on the pumping of water to water haulers. Some objections were raised to this, concerning cost of providing water, and town liabilities. It was agreed that the water problem in the water haulers area is going to get worse in time and that the town should try to educate the people on the problem. Various strategies were discussed with no agreement on them other then education.
