

Groundwater Resource Advisory Committee Minutes
2-12-8

Bob Bowman chairman called meeting to order.

New members Mike Randall, Jack Hamilton and Len Maranaccio were accepted.

- Bowman did a review of past actions.
- How to keep community informed of water issues
- Methods of harvesting of rain water.
- Conservation issues and future projects.

Elected new officers.

- Mike Randall is chairman.
- Jack Hamilton is secretary.

Len talked about his idea of a water budget and what could be done with it. Basically the town would have very little control over a water budget.

Talked about sewer and water liabilities to the town if a new private water or sewage company was formed and what actions could be taken.

Talked about things the town could control.

- Conserving water through changes in ordinances on future building
- No dense housing zoning changes.
- Education through newsletter and new home builders getting a brochure.
- Put in new waste water discharge requirements

Assigned each member a task to report back on to the committee to form a report that could be presented to the town council sometime in the future.

- History of water and how future laws will effect us
- Grey water use
- Waterless toilets or other low water sewage treatment.
- Current laws on water when land is sold.

Meeting adjourned

Jack Hamilton
Secretary
