### WINTER SNOW REMOVAL PLAN

Winter is upon us. In the event we receive heavy snow in the coming months, the Town Public Works Department has made sure the snowplow is ready to go in preparation for the cold weather.

The snow removal plan is as follows: Staff will start with the main collector/feeder roads throughout Town, then work into the smaller neighborhood roads. We will get to all Town owned roads as quickly as possible. The snowplow blade is wide, and the truck has to move slowly in order to effectively remove the snow. When snow removal is in process, there may be traffic delays on Town owned roads. Your patience would be appreciated.

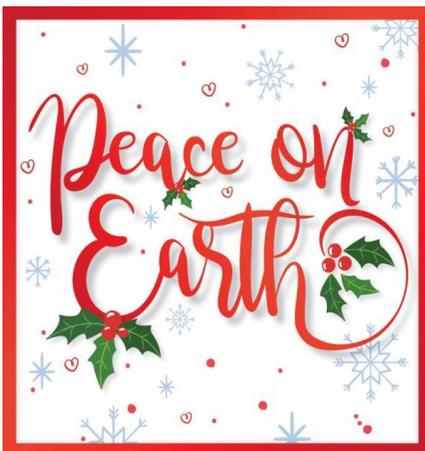

During a snowstorm, we also ask our residents to avoid parking vehicles on the roads. Vehicles parked on the roads may become an obstacle for the Town's truck to remove snow.

If you have any questions about

### GENERAL PLAN UPDATE BEGINNING

Every 10 years, the General Plan is required to be ratified by the voters. The current General Plan was adopted by Council on May 19, 2009.

The Town of Dewey-Humboldt is currently seeking Statements of Qualifications from qualified, licensed firms interested in providing professional services to update the Town of Dewey-Humboldt General Plan. State Statute mandates that municipalities prepare General Plans in accordance with "Growing Smarter" legislation. These plans are comprehensive and describe the vision, goals and policies of the Town. The document identifies a staff responsibility to identify how each proposed Council action relates to the following values: **Active Citizenship; Sustainable Development; Creating Community; Self-Reliance; Efficient Public Services; Limited Public Services; Durable Public Improvements.**

### Scope of Work

Much of the information in the current adopted General Plan mentioned above including, but not limited to, various elements, tables/charts, maps, and goals and policies are anticipated to be retained and/or updated where necessary. The Town of Dewey-Humboldt included all the following elements in our current General Plan and will be included in our update: **Land Use; Circulation; Open Space/Trails; Growth Area; Environmental Planning; Cost of Development; Water Resources.**

**Optional Elements for Consideration: Conservation; Aggregate; Recreation; Public Buildings; Housing; Safety; Energy.**

The consultant will initially, as Phase 1, be assisting the community in evaluating and appraising the effectiveness and continuing relevance of each element of the existing plan and exploring with the community any new elements needed to be added.

The results of the evaluation and appraisal from Phase 1 will be used by the firm contracted to develop the scope of work for the update of each element and the development of the new elements, including background data, analysis, and goals and objectives, as Phase 2 under separate contract.

Additionally, the consultant will provide support in recommending plan framework, coordinating facilitating citizen participation and community outreach, plan editing and drafting, data collection and analysis to support the update of each element as, including graphics and diagrams, maps, public surveying, public meetings, staff meetings and any related items that are necessary in moving the update of the General Plan forward in a manner consistent with Arizona Revised Statutes, Town of Dewey-Humboldt Laws and Regulations and in concert with the goals and policies of the Mayor and Council.

It is anticipated that additional elements may be included to support various Town goals and policies identified through this process.

**Public involvement will be a major component of the update effort and it is anticipated that a Stakeholders Committee would be formed to direct the consultant's work throughout the process.**

**CAUTION PLEASE!**

The Public Works Department is currently working on continuing the Road Preservation project for FY 2019-2020 throughout the Town of Dewey-Humboldt. This involves ditch-grading, shoulder rebuilding and paving.

You can always see the guys out weed eating, mowing and doing storm damage repairs.

Please be extra cautious whenever you see the guys out on our roads!

And...over the next few months, **APS** will be replacing existing utility poles and transformers throughout the Town.

Please be aware of APS employees when they are working in the Town.

## LEGO ROBOTICS TEAMS VISIT TOWN COUNCIL

The Humboldt Elementary School is participating in a Lego Robotics competition. Team members learn how to build and program a Lego robot to solve a mission in a robot game. They are also challenged to identify a problem within our community, research it and develop a solution to the problem. At the November 12, 2019 Town Council meeting, two teams gave their presentations to Councilmembers.

One team called the **Precision Pandas** felt our Town was lacking a Community Center. This center would be like a giant park with buildings for inside activities and ballfields, etc. for outside activities. A possible location would be near the Smelter Site.

Another team called the **Humboldt Engineers** felt our community needed a greenhouse to teach people how to grow food and flowers. This greenhouse would use a rainwater collection system to water the plants. It would also have booths for people to sell their fruits, vegetables and flowers.

We wish the Precision Pandas and the Humboldt Engineers good luck in their competition!
